

RE-WALK REVIEW

Walk 3 judged 4,996 films and 1,163 shows from their stored YouTube Music searches, then resolved the whole catalog at once. Nothing has been applied: the catalog is exactly as it was.

WAITING ON YOU

What sign-off covers

Apply the plan	66 corrections, 727 additions, 56 retired rows, 91 re-ids. Apply re-checks every action against the catalog as it is by then and skips anything that moved. Retired rows keep their album in your history.
songsAlbum policy	Track artists (452 rows) or your literal wording (597 rows). The literal version flags scores YouTube Music credits to Various Artists (Harry Potter, The Green Mile, Coco). I recommend track artists.
Re-ids, this once	91 TV rows change id and title to the slot their album fills. Each keeps its place in the file, so its TRACK number, and its tracklist file moves with it.
Knockoff proposals	Not applied. The vet found cover acts, game albums and same-name films on 27 rows (marked in red below). Say the word and I add those acts and "Original Game Soundtrack" to the reject lists, then re-resolve offline in minutes.
Overrides file	Proposed, not applied. Nine pins, Creed II dropped as you asked.

Catalog after apply

Titles with an album, after (bold) and before (struck). Bars share one 0 to 100% scale; the paler segment is where the catalog stands today.

YOUR QUESTION

Why Andor Season 2 was missing

A model gap, not a one-off. Season 2 shipped in four volume albums, and all four were in the stored search and accepted. Every one read "Season 2", so all four competed for the single season-2 row, which Season 1's Vol. 2 already held. One album per season meant none of them got in.

Your volume decision fixes it: each volume is its own row. Season 1's three volumes keep their places under new ids, and Season 2's four are added. No override needed.

VOLUME DECISION

Every re-id'd row

Old id, new id, and where the season in the new id came from: the album title, the release year, the show's only season, or nowhere (season-less). None were blocked by another row.

VOLUME DECISION

Seasons that came from release year, and season-less volumes

Every row the plan leaves in place whose season was not named in its album title.

Release year can misplace a volume that came out early in a later season's year:

Better Call Saul Vol. 1 lands in Season 3 and Mr. Robot Vol. 1 in Season 2.

Season from release year or the only season 79
